U.S. House of Representatives  
Washington D.C. 20515

Dear Representative:

On behalf of CatholicVote, representing the voices of millions of Catholics across America who seek to renew our country and our culture, I am writing to voice our support for H.R. 6945, “Supporting Pregnant and Parenting Women and Families Act.”

Women who choose life of their children, and the private organizations that support them, are under unprecedented attack by those who think abortion is the only answer. The result is that women who find themselves in situations they did not prepare for falsely believe they are alone and that the only way out is the death of their unborn child.

H.R. 6945, introduced by Rep. Michelle Fischbach, R-MN, would block a Biden Administration-era rule that could prohibit states from giving Temporary Assistance for Needy Families (TANF) funds to pregnancy centers which support the life of both the mother and unborn child.

Currently there have been hundreds of physical attacks on pregnancy resource centers. It is no surprise that the Biden administration would have tacitly endorsed those attacks by attempting to divert resources away from these lifesaving and life affirming entities. The Democrats would prefer to make it harder for moms to choose life for their unborn child and take care of themselves and their baby. If this rule were to return under a future pro-abortion administration, women in America would have fewer alternatives to abortion and less access to maternal care.

The passage of this bill should not be controversial; however, the extremism of the Democratic Party has made it clear that if you are a young mother who chooses life, they will make it harder for you to prosper. If there is a vote on the House floor, CatholicVote will score in favor of H.R. 6945, “Supporting Pregnant and Parenting Women and Families Act.” in our annual scorecard for the 119<sup>th</sup> Congress.

Sincerely,
