

**Statement of Charter Communications on
Tax Legislation Advanced by the House Ways and Means Committee**

May 19, 2025

“We applaud the House Ways and Means Committee for advancing important tax legislation through the Committee,” said Catherine Bohigian, EVP of Government Affairs for Charter. “In particular, we commend the Committee for retaining the pro-growth corporate tax rate and restoring key business tax provisions, including the EBITDA standard, that will enable capital-intensive companies like Charter to continue investing in critical infrastructure—especially broadband expansion in rural communities. These provisions strengthen local economies, create good-paying jobs, support small businesses, enhance educational access, and boost productivity in underserved regions.”
