

May 13, 2025

The Honorable Jason Smith
Chairman
Committee on Ways & Means
U.S. House of Representatives
Washington, D.C. 20515

Dear Chairman Smith:

On behalf of the SAF Coalition, we commend the House Committee on Ways & Means for supporting the extension of the Clean Fuel Production Credit (45Z) through 2031. This critical legislation provides long-term certainty for SAF producers, incentivizes private sector investment, and builds out a robust domestic supply chain.

SAF is a key solution for strengthening U.S. energy dominance, driving investment in rural economies, and positioning the United States as a global leader in SAF production. We appreciate your work to strengthen U.S. economic and technological leadership through extension of 45Z.

We hope you will consider the SAF Coalition as a partner in furthering American energy dominance and investment in rural economies. We look forward to continuing to work with you to strengthen the Clean Fuel Production Credit.

Sincerely,

The SAF Coalition
