

Supporting Pregnant and Parenting Women and Families Act (H.R. 6945)

March for Life Action

"March for Life Action applauds the reintroduction of Rep. Fischbach's Supporting Pregnant and Parenting Women and Families Act. This legislation champions pregnancy centers and the compassionate people who stand with women and their babies in times of need, as these centers offer practical, actionable ways to empower women throughout pregnancy and beyond. March for Life Action will continue to advocate for policies that prioritize supporting women and their babies, empowering them to choose life with confidence and hope." -Jennie Bradley Lichter, President, March for Life Action

Americans United for Life (AUL)

"Americans United for Life supports H.R. 6945, the Supporting Pregnant and Parenting Women and Families Act, which would explicitly protect states' ability to direct federal TANF funds to pregnancy centers that provide practical assistance to mothers, fathers, and families." - John Mize, CEO, AUL

Susan B. Anthony Pro-Life America (SBA)

"H.R. 6945, the Supporting Pregnant and Parenting Women and Families Act, is an important measure to ensure that no future administration can discriminate against PRCs and prevent them receiving TANF funds to provide practical assistance to mothers, fathers, and families. H.R. 6945 makes it statutorily clear that PRCs are allowed to receive TANF funds and therefore prohibits any regulatory or other administrative action that would prohibit a state's use of TANF funds for PRCs." - Marjorie Dannenfelser, President, SBA

National Right to Life (NRLC)

"National Right to Life strongly supports the Supporting Pregnant and Parenting Women and Families Act. Pregnancy centers play a critical role in communities across the country by offering services that protect both mother and child. Too often, these organizations face discrimination simply because they are committed to protecting unborn life. This bill makes clear that states may support pregnancy centers without fear of federal interference, ensuring that women are not denied access to real help and meaningful alternatives. We applaud lawmakers for standing up for women, strengthening families, and recognizing the vital work of pregnancy centers." - Carol Tobias, President, NRLC

Catholic Vote

"On behalf of CatholicVote, representing the voices of millions of Catholics across America who seek to renew our country and our culture, I am writing to voice our

support for H.R. 6945, "Supporting Pregnant and Parenting Women and Families Act." H.R. 6945, introduced by Rep. Michelle Fischbach, R-MN, would block a Biden Administration-era rule that could prohibit states from giving Temporary Assistance for Needy Families (TANF) funds to pregnancy centers which support the life of both the mother and unborn child." -Thomas McClusky, Director of Government Affairs, CatholicVote

Heartbeat International

"Heartbeat International welcomes federal efforts to protect the pregnancy help community from unjust discrimination. Our pregnancy help centers, maternity homes, medical centers, and adoption agencies offer invaluable support to moms and families--often without a dime of taxpayer funds. Every state should promote practical, life-affirming help for moms unexpectedly pregnant. States that protect unborn life and promote maternal health should be permitted to partner with members of our community to offer effective care. H.R. 6945, Supporting Pregnant and Parenting Women and Families Act levels the playing field and helps ensure that pro-abortion politicians can't exclude us from strategic and compassionate partnership." Jor-El Godsey, President, Heartbeat International

American Association of Pro-Life OBGYNs (AAPLOG)

"As physicians and medical professionals committed to the health and well-being of both our patients - women and their preborn children - AAPLOG Action strongly supports H.R. 6945, introduced by Representative Michelle Fischbach" -Rebecca Weaver, Director of Advocacy and Policy, AAPLOG

Family Policy Alliance

"Pregnancy Resource Centers (PRCs) provide essential and practical assistance to vulnerable mothers, fathers, and families choosing life for their unborn children. The ability for states to support PRCs with existing Temporary Assistance for Needy Families (TANF) funds would not only protect children in womb, but it would also greatly preserve state flexibility in serving families in need. This bill aligns with Family Policy Alliance's steadfast commitment to defending the sanctity of life while compassionately walking alongside those in need. Supporting this legislation is vital to ensure that no future regulatory efforts to block these life-affirming partnerships with PRCs can come to fruition." - Craig DeRoche, President and CEO, Family Policy Alliance

National Council of Child Support Directors (NCCSD)

"I write to express the support of the National Council of Child Support Directors (NCCSD) for H.R. 6903 – Ensuring Children Receive Support Act. NCCSD is a nonpartisan organization comprised of the 54 child support directors who, pursuant to Title IV-D of the Social Security Act, oversee administration of the federal child support program in each state and territory. Passage of this bill would represent the first

enhancement of enforcement mechanisms since the enactment of the Personal Responsibility and Work Opportunity Reconciliation Act (PRWORA) of 1996.” - Sharon Redmond, President, NCCSD

Students for Life Action

“The abortion industrial complex has waged war against people having life-affirming pregnancy resources for many years now. While Pregnancy Care Centers support women with free services and supplies, a billion-dollar abortion industry receives revenue sometimes from taxpayers, corporate interests, and unlucky people, exposed to their death-for-profit business model. These critically important centers offer more services than any abortion facility, including Planned Parenthood, and virtually all for free. The pro-life movement is and always has been not only pro-life, but pro-women. In fact, the pro-life movement is the only one fighting to give women all their choices, unlike what Planned Parenthood claims to do. We will continue our fight until every woman and every child is protected and supported under the law. Students for Life Action firmly supports the 'Supporting Pregnant and Parenting Women and Families Act' by Rep. Fischbach (R-MN).” – Kristan Hawkins, President, Students for Life of America & Students for Life Action
